

# Rabbit Granulocyte Macrophage Colony Stimulating Factor 2 ELISA Kit | GMCSF/CSF2 elisa kit

Rabbit Granulocyte Macrophage Colony Stimulating Factor 2 ELISA Kit

|                               |                             |
|-------------------------------|-----------------------------|
| CATALOG #<br><b>AAA100152</b> | REACTIVITY<br><b>Rabbit</b> |
|-------------------------------|-----------------------------|

## PRODUCT SYNONYMS

Granulocyte Macrophage Colony Stimulating Factor 2; Rabbit Granulocyte Macrophage Colony Stimulating Factor 2 ELISA Kit; GMCSF/CSF2 elisa kit

## PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rabbit                                                                                                                                                       |
| Sequence Length         | 144                                                                                                                                                          |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 7.813-500pg/ml                                                                                                                                               |
| Sensitivity             | 4.688pg/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

## NCBI AND UNIPROT INFORMATION

|                                  |                                                    |
|----------------------------------|----------------------------------------------------|
| NCBI GI #                        | 13991933                                           |
| NCBI GeneID                      | 1437                                               |
| Molecular Weight                 | 16,295 Da                                          |
| NCBI Official Full Name          | granulocyte-macrophage colony stimulating factor 2 |
| NCBI Official Synonym Full Names | colony stimulating factor 2                        |
| NCBI Official Symbol             | CSF2                                               |

|                               |                                                  |
|-------------------------------|--------------------------------------------------|
| NCBI Official Synonym Symbols | GMCSF                                            |
| NCBI Protein Information      | granulocyte-macrophage colony-stimulating factor |
| UniProt Protein Name          | Granulocyte-macrophage colony-stimulating factor |
| UniProt Gene Name             | <b>CSF2</b>                                      |
| UniProt Synonym Gene Names    | GMCSF; GM-CSF; CSF                               |
| UniProt Entry Name            | CSF2_HUMAN                                       |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
