

## Sheep Immunoglobulin E ELISA Kit | IgE elisa kit

Sheep Immunoglobulin E ELISA Kit

CATALOG #  
**AAA10057**

REACTIVITY  
**Sheep**

### PRODUCT SYNONYMS

Immunoglobulin E; Sheep Immunoglobulin E ELISA Kit; IgE elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                 |
|-------------------------|-------------------------------------------------------------------------------------------------|
| Reactivity              | Sheep                                                                                           |
| Specificity             | No significant cross-reactivity or interference between this analyte and analogues is observed. |
| Sequence Length         | 122                                                                                             |
| Samples                 | Body fluids, tissue homogenates, secretions or feces samples                                    |
| Assay Type              | Quantitative Sandwich                                                                           |
| Detection Range         | 0.625 ug/ml - 20 ug/ml                                                                          |
| Sensitivity             | 0.1 ug/ml.                                                                                      |
| Intra-assay Precision   | Intra-assay CV (%) is less than 15%                                                             |
| Inter-assay Precision   | Inter-assay CV (%) is less than 15%. [CV(%) = SD/mean ×100].                                    |
| Preparation and Storage | Store all reagents at 2-8 degree C                                                              |

### ADDITIONAL INFORMATION

#### Related Product Information for IgE elisa kit

Background/Introduction: This Quantitative Sandwich ELISA kit is only for in vitro research use only! This kit is intended to be used for determination the level of IgE (hereafter termed "analyte") in undiluted original Sheep body fluids, tissue homogenates, secretions or feces samples. This kit is NOT suitable for assaying non-biological sources of substances.
