

## Chicken Nerve Growth Factor ELISA Kit | NGF elisa kit

Chicken Nerve Growth Factor ELISA Kit

CATALOG #  
**AAA101451**

REACTIVITY  
**Chicken**

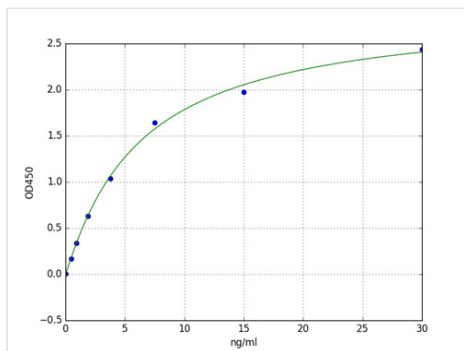

### PRODUCT SYNONYMS

Nerve Growth Factor; Chicken Nerve Growth Factor ELISA Kit; NGF elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Chicken                                                                                                                                                      |
| Sequence Length         | 194                                                                                                                                                          |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 0.469-30ng/ml                                                                                                                                                |
| Sensitivity             | 0.281ng/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

### NCBI AND UNIPROT INFORMATION

|                                  |                                          |
|----------------------------------|------------------------------------------|
| NCBI GI #                        | <a href="#">42409517</a>                 |
| NCBI GeneID                      | <a href="#">58133</a>                    |
| NCBI Accession #                 | <a href="#">NP_954680.1</a>              |
| NCBI GenBank Nucleotide #        | <a href="#">NM_199210.1</a>              |
| Molecular Weight                 | 21,903 Da                                |
| NCBI Official Full Name          | nerve growth factor                      |
| NCBI Official Synonym Full Names | nerve growth factor b (beta polypeptide) |

|                               |                                       |
|-------------------------------|---------------------------------------|
| NCBI Official Symbol          | ngfb                                  |
| NCBI Official Synonym Symbols | ngf; ns:zft386; xx:zft386; zgc:109730 |
| NCBI Protein Information      | nerve growth factor                   |
| UniProt Protein Name          | Nerve growth factor                   |
| UniProt Gene Name             | <b>ngf</b>                            |
| UniProt Synonym Gene Names    | ngfb; NGF; zNGF                       |
| UniProt Entry Name            | NGF_DANRE                             |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
