

# Human Keratin, type II cytoskeletal 2 epidermal ELISA Kit | KRT2 elisa kit

Human Keratin, type II cytoskeletal 2 epidermal ELISA Kit

CATALOG #  
**AAA101505**

REACTIVITY  
**Human**

## PRODUCT SYNONYMS

Keratin; type II cytoskeletal 2 epidermal; Human Keratin; type II cytoskeletal 2 epidermal ELISA Kit; KRT2/Keratin; type II cytoskeletal 2 epiderma/Type-II keratin Kb2/Keratin-2e/K2e/Keratin-2 epidermis/Cytokeratin-2e/CK-2e/Epithelial keratin-2e/KRT2A/KRT2E/KRTE; KRT2 elisa kit

## PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                              |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                        |
| Sequence Length         | 639                                                                                                                                                          |
| Assay Type              | Sandwich ELISA, Double Antibody                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernatant, cell or tissue lysate, Other liquid samples                                                                         |
| Detection Range         | 0.156-10ng/ml                                                                                                                                                |
| Sensitivity             | 0.094ng/ml                                                                                                                                                   |
| Preparation and Storage | Store entire kit at 2-8C for short-term. For longer-term, please store the microplate & standard at -20C, while the remaining reagents can be stored at 2-8C |

### Typical Data & Standard Curve

Results of a typical standard run of a Human KRT2 ELISA Kit are shown below. This standard curve was generated at our lab for demonstration purpose only. Each user should obtain their own standard curve as per experiment. (N/A=not applicable)

| X | ng/ml | 0     | 0.156 | 0.313 | 0.625 | 1.25  | 2.5   | 5     | 10    |
|---|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| Y | OD450 | 0.080 | 0.132 | 0.246 | 0.380 | 0.637 | 1.018 | 1.627 | 1.919 |

## ADDITIONAL INFORMATION

### Related Product Information for KRT2 elisa kit

**Principle of the Assay**||This kit was based on sandwich enzyme-linked immune-sorbent assay technology. Anti-Human KRT2 antibody was pre-coated onto 96-well plates. And the biotin conjugated anti-Human KRT2 antibody was used as detection antibodies. The standards, test samples and biotin conjugated detection antibody were added to the wells subsequently, and wash with wash buffer. HRP-Streptavidin was added and unbound conjugates were washed away with wash buffer. TMB substrates were used to visualize HRP enzymatic reaction. TMB was catalyzed by HRP to produce a blue color product that changed into yellow after adding acidic stop solution. The density of yellow is proportional to the Human KRT2 amount of sample captured in plate. Read the O.D. absorbance at 450nm in a microplate reader, and then the concentration of Human KRT2 can be calculated.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
