

## Mouse Coagulation Factor Xa (F10A) ELISA Kit | F10A elisa kit

Mouse Coagulation Factor Xa (F10A) ELISA Kit

CATALOG #  
**AAA10192**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

Coagulation Factor Xa (F10A); Mouse Coagulation Factor Xa (F10A) ELISA Kit; F10A elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                      |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                |
| Specificity             | No significant cross-reactivity or interference between Mouse FXA and analogues was observed.                                        |
| Sequence Length         | 96                                                                                                                                   |
| Assay Type              | Quantitative Sandwich                                                                                                                |
| Detection Range         | 62.5pg/ml-2000pg/ml                                                                                                                  |
| Sensitivity             | 10pg/ml                                                                                                                              |
| Intra-assay Precision   | Intra-assay CV (%) is less than 15%.                                                                                                 |
| Inter-assay Precision   | Inter-assay CV (%) is less than 15%. [CV(%) = SD/mean ×100]. All CV% should be compared by concentration, not compared by OD values. |
| Preparation and Storage | Store all reagents at 2-8 degree C                                                                                                   |

### ADDITIONAL INFORMATION

#### Related Product Information for F10A elisa kit

Background: This Quantitative Sandwich ELISA kit is for lab reagent/research use only, not for drug, household, therapeutic or diagnostic applications! This kit is intended to be used for determine the level of F10A (hereafter termed "analyte") in undiluted original Mouse serum, plasma or tissue homogenates samples. For other sample types please contact tech support to determine compatibility with this assay. This kit is not suitable for assaying non-biological sources of substances.

### NCBI AND UNIPROT INFORMATION

NCBI GI #

37926478

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
