

## Mouse WISP1 ELISA Kit | WISP1 elisa kit

Mouse WISP1 ELISA Kit

|                               |                            |                              |
|-------------------------------|----------------------------|------------------------------|
| CATALOG #<br><b>AAA105579</b> | REACTIVITY<br><b>Mouse</b> | APPLICATIONS<br><b>ELISA</b> |
|-------------------------------|----------------------------|------------------------------|

### PRODUCT SYNONYMS

WISP1; Mouse WISP1 ELISA Kit; CCN4; WNT1-inducible-signaling pathway protein 1; WISP-1; CCN family member 4; Wnt-1-induced secreted protein; WISP1 elisa kit

### PRODUCT SPECIFICATIONS

|                                             |                                                                                                             |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| Reactivity                                  | Mouse                                                                                                       |
| Sequence Length                             | 367                                                                                                         |
| Samples                                     | Cell Culture Supernatants, Serum, Plasma                                                                    |
| Assay Type                                  | Sandwich                                                                                                    |
| Detection Range                             | 31.2 pg/ml - 2000 pg/ml                                                                                     |
| Sensitivity                                 | 10 pg/ml                                                                                                    |
| Applicable Applications for WISP1 elisa kit | ELISA (Sandwich ELISA)                                                                                      |
| Detection Method                            | Colorimetric                                                                                                |
| Preparation and Storage                     | Shipped and store at 4 degree C for 6 months, store at -20 degree C for one year. Avoid freeze/thaw cycles. |
