

## Mouse CD134 ELISA Kit | TNFRSF4 elisa kit

Mouse CD134 ELISA Kit

|                               |                            |                              |
|-------------------------------|----------------------------|------------------------------|
| CATALOG #<br><b>AAA105791</b> | REACTIVITY<br><b>Mouse</b> | APPLICATIONS<br><b>ELISA</b> |
|-------------------------------|----------------------------|------------------------------|

### PRODUCT SYNONYMS

CD134; Mouse CD134 ELISA Kit; TXGP1L; Tumor necrosis factor receptor superfamily member 4; ACT35 antigen; OX40L receptor; TAX transcriptionally-activated glycoprotein 1 receptor; TNFRSF4 elisa kit

### PRODUCT SPECIFICATIONS

|                                               |                                                                                                             |
|-----------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| Reactivity                                    | Mouse                                                                                                       |
| Sequence Length                               | 272                                                                                                         |
| Samples                                       | Cell Culture Supernatants, Serum, Plasma                                                                    |
| Assay Type                                    | Sandwich                                                                                                    |
| Detection Range                               | 31.2 pg/ml - 2000 pg/ml                                                                                     |
| Sensitivity                                   | 10 pg/ml                                                                                                    |
| Applicable Applications for TNFRSF4 elisa kit | ELISA (Sandwich ELISA)                                                                                      |
| Detection Method                              | Colorimetric                                                                                                |
| Preparation and Storage                       | Shipped and store at 4 degree C for 6 months, store at -20 degree C for one year. Avoid freeze/thaw cycles. |
