

## Mouse IL-13 ELISA Kit | IL13 elisa kit

Mouse IL-13 ELISA Kit

|                               |                            |                              |
|-------------------------------|----------------------------|------------------------------|
| CATALOG #<br><b>AAA105885</b> | REACTIVITY<br><b>Mouse</b> | APPLICATIONS<br><b>ELISA</b> |
|-------------------------------|----------------------------|------------------------------|

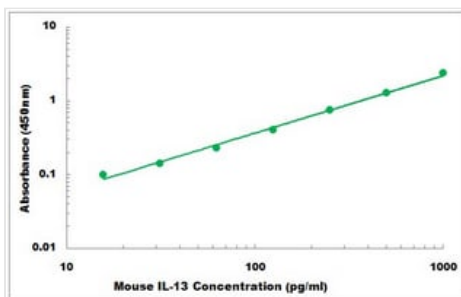

### PRODUCT SYNONYMS

IL-13; Mouse IL-13 ELISA Kit; NC30; Interleukin-13; IL13 elisa kit

### PRODUCT SPECIFICATIONS

|                                            |                                                                                                             |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| Reactivity                                 | Mouse                                                                                                       |
| Sequence Length                            | 131                                                                                                         |
| Samples                                    | Cell Culture Supernatants, Serum, Plasma, Tissue Homogenates                                                |
| Assay Type                                 | Sandwich                                                                                                    |
| Detection Range                            | 15.625 pg/ml - 1000 pg/ml                                                                                   |
| Sensitivity                                | 7 pg/ml                                                                                                     |
| Applicable Applications for IL13 elisa kit | ELISA (Sandwich ELISA)                                                                                      |
| Detection Method                           | Colorimetric                                                                                                |
| Preparation and Storage                    | Shipped and store at 4 degree C for 6 months, store at -20 degree C for one year. Avoid freeze/thaw cycles. |

### NCBI AND UNIPROT INFORMATION

|                  |             |
|------------------|-------------|
| NCBI GI #        | 6680403     |
| NCBI GeneID      | 16163       |
| NCBI Accession # | NP_032381.1 |

|                                  |                                                |
|----------------------------------|------------------------------------------------|
| NCBI GenBank Nucleotide #        | <a href="#">NM_008355.3</a>                    |
| UniProt Accession #              | <a href="#">P20109</a>                         |
| Molecular Weight                 | 14,108 Da                                      |
| NCBI Official Full Name          | interleukin-13                                 |
| NCBI Official Synonym Full Names | interleukin 13                                 |
| NCBI Official Symbol             | IL13                                           |
| NCBI Official Synonym Symbols    | IL-13                                          |
| NCBI Protein Information         | interleukin-13; T-cell activation protein P600 |
| UniProt Protein Name             | Interleukin-13                                 |
| UniProt Gene Name                | <b>IL13</b>                                    |
| UniProt Synonym Gene Names       | IL-13; IL-13                                   |
| UniProt Entry Name               | IL13_MOUSE                                     |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
