

## Mouse CD252 ELISA Kit | TNFSF4 elisa kit

Mouse CD252 ELISA Kit

|                               |                            |                              |
|-------------------------------|----------------------------|------------------------------|
| CATALOG #<br><b>AAA106027</b> | REACTIVITY<br><b>Mouse</b> | APPLICATIONS<br><b>ELISA</b> |
|-------------------------------|----------------------------|------------------------------|

### PRODUCT SYNONYMS

CD252; Mouse CD252 ELISA Kit; TXGP1; Tumor necrosis factor ligand superfamily member 4; Glycoprotein Gp34; OX40 ligand; OX40L; TAX transcriptionally-activated glycoprotein 1; TNFSF4 elisa kit

### PRODUCT SPECIFICATIONS

|                                              |                                                                                                             |
|----------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| Reactivity                                   | Mouse                                                                                                       |
| Sequence Length                              | 198                                                                                                         |
| Samples                                      | Cell Culture Supernatants, Serum, Plasma                                                                    |
| Assay Type                                   | Sandwich                                                                                                    |
| Detection Range                              | 62.5 pg/ml - 4000 pg/ml                                                                                     |
| Sensitivity                                  | 10 pg/ml                                                                                                    |
| Applicable Applications for TNFSF4 elisa kit | ELISA (Sandwich ELISA)                                                                                      |
| Detection Method                             | Colorimetric                                                                                                |
| Preparation and Storage                      | Shipped and store at 4 degree C for 6 months, store at -20 degree C for one year. Avoid freeze/thaw cycles. |
