

## Mouse Norovirus G2 Monoclonal Antibody

Norovirus G2 antibody

|                               |                      |                                                          |
|-------------------------------|----------------------|----------------------------------------------------------|
| CATALOG #<br><b>AAA106831</b> | HOST<br><b>Mouse</b> | APPLICATIONS<br><b>ELISA, Western Blot, Lateral Flow</b> |
|-------------------------------|----------------------|----------------------------------------------------------|

### PRODUCT SYNONYMS

Norovirus G2; Monoclonal Antibody; Norovirus G2 antibody; Monoclonal Norovirus G2; Anti-Norovirus G2; Norovirus; Norovirus Viral capsid; Norovirus type G2; anti-Norovirus G2 antibody

### PRODUCT SPECIFICATIONS

|                                                        |                                                                                                        |
|--------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| Host                                                   | Mouse                                                                                                  |
| Clonality                                              | Monoclonal                                                                                             |
| Isotype                                                | IgG2b                                                                                                  |
| Clone Number                                           | M59882                                                                                                 |
| Form/Format                                            | Liquid in 0.01M PBS, pH 7.2 with 0.1% sodium azide as preservative                                     |
| Concentration                                          | 1.3 mg/ml (varies by lot)                                                                              |
| Applicable Applications for anti-Norovirus G2 antibody | ELISA, WB (Western Blot), LF (Lateral Flow)                                                            |
| Immunogen                                              | Recombinant GII capsid protein                                                                         |
| Cross-Reactivity                                       | Specific for the GII capsid protein. Reactive with genogroups: I, II, III, IV, V                       |
| Preparation and Storage                                | Store at 2-8 degree C short term<br>Store at -20 degree C long term<br>Avoid repeat freeze/thaw cycles |

### ADDITIONAL INFORMATION

|                                                            |                                        |
