

## Mouse RBM46 Monoclonal Antibody | anti-RBM46 antibody

RBM46 antibody

|                               |                      |                                                                                           |
|-------------------------------|----------------------|-------------------------------------------------------------------------------------------|
| CATALOG #<br><b>AAA107378</b> | HOST<br><b>Mouse</b> | APPLICATIONS<br><b>Western Blot, Immunofluorescence, Flow Cytometry, Functional Assay</b> |
|-------------------------------|----------------------|-------------------------------------------------------------------------------------------|

### PRODUCT SYNONYMS

RBM46; Monoclonal Antibody; RBM46 antibody; Monoclonal RBM46; Anti-RBM46; CT68; MGC27016; RBM 46; RBM-46; anti-RBM46 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                          |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Mouse                                                                                                                                    |
| Clonality                                       | Monoclonal                                                                                                                               |
| Isotype                                         | IgG1                                                                                                                                     |
| Clone Number                                    | 1D6                                                                                                                                      |
| Purity/Purification                             | RBM46 antibody was purified by affinity chromatography.                                                                                  |
| Form/Format                                     | Supplied in PBS buffer, pH 7.3, containing 1% BSA, 50% glycerol and 0.02% sodium azide.                                                  |
| Concentration                                   | 0.5-1 mg/ml (varies by lot)                                                                                                              |
| Sequence Length                                 | 533                                                                                                                                      |
| Applicable Applications for anti-RBM46 antibody | WB (Western Blot), IF (Immunofluorescence), FCM/FACS (Flow Cytometry)                                                                    |
| Biological Significance                         | The function of this gene has not been widely studied.                                                                                   |
| Cross-Reactivity                                | Human                                                                                                                                    |
| Immunogen                                       | RBM46 antibody was raised in Mouse using full length human recombinant protein of human RBM46 produced in HEK293T cell as the immunogen. |
| Preparation and Storage                         | Store at 4 degree C for short term storage. Aliquot and store at -20 degree C for long term storage. Avoid repeated freeze/thaw cycles.  |

### IMAGES

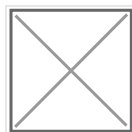

#### IF (Immunofluorescence)

Immunofluorescent staining of COS7 cells transiently transfected with recombinant RBM46 protein using RBM46 antibody

#### WB (Western Blot)

Western Blot analysis of HEK293T cell lysates (5 ug) transfected with either recombinant RBM46 protein (Right) or empty vector (Left) detected with RBM46 antibody

#### FCM/FACS (Flow Cytometry)

Flow Cytometric analysis of HEK293T cells transfected with either recombinant RBM46 protein (red) or empty vector (blue) stained using RBM46 antibody

ADDITIONAL INFORMATION
