

Rabbit Niban-like Polyclonal Antibody

Niban-like protein antibody

CATALOG # AAA107942	HOST Rabbit	APPLICATIONS Western Blot, Immunofluorescence
-------------------------------	-----------------------	---

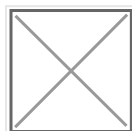

PRODUCT SYNONYMS

Niban-like; Polyclonal Antibody; Niban-like protein antibody; Polyclonal Niban-like protein; Anti-Niban-like protein; Family with sequence similarity 129 member B; Ab 712; DKFZP434H0820; C9orf88; anti-Niban-like antibody

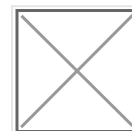

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Purity/Purification	Niban-like protein antibody was purified by immunoaffinity chromatography.
Form/Format	Supplied in liquid form in PBS buffer (no MG2+ or Ca2+), pH 7.4, 150 mM NaCl, 0.02% sodium azide and 50% glycerol.
Concentration	1 mg/ml (varies by lot)
Applicable Applications for anti-Niban-like antibody	WB (Western Blot), IF (Immunofluorescence)
Biological Significance	Niban-like protein 1 belongs to a poorly characterized family of Niban proteins that also includes FAM129A/Niban and FAM129C/Niban-like protein 2. FAM129A/Niban is implicated in the ER stress response and is upregulated at the protein level in thyroid carcinoma.
Cross-Reactivity	Human, Mouse, Rat
Immunogen	Niban-like protein antibody was raised in Rabbit using the peptide sequence around aa 710~714 (Q-V-S-S-P) derived from Human Niban-like protein as the immunogen.
Preparation and Storage	Store at 4 degree C for short term storage. Aliquot and store at -20 degree C for long term storage. Avoid repeated freeze/thaw cycles.

IMAGES

WB (Western Blot)

Western Blot analysis of extracts from 3T3 and DU145 cells using Niban-like protein antibody

IF (Immunofluorescence)

Immunofluorescence staining of methanol-fixed Hela cells using Niban-like protein antibody

ADDITIONAL INFORMATION

Related Product Information for anti-Niban-like antibody	Rabbit polyclonal Niban-like protein antibody
Product Categories/Family for anti-Niban-like antibody	Cancer

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
