

## Rabbit NFKP p65 Polyclonal Antibody | anti-NFKP p65 antibody

NFKP p65 antibody

|                               |                       |                                                                                      |
|-------------------------------|-----------------------|--------------------------------------------------------------------------------------|
| CATALOG #<br><b>AAA108299</b> | HOST<br><b>Rabbit</b> | APPLICATIONS<br><b>ELISA, Immunofluorescence, Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------|--------------------------------------------------------------------------------------|

### PRODUCT SYNONYMS

NFKP p65; Polyclonal Antibody; NFKP p65 antibody; Polyclonal NFKP p65; Anti-NFKP p65; MGC131774; NFKB3; Nuclear factor NF-kappa-B p65 subunit; Nuclear factor of kappa light polypeptide gene enhancer in B-cells 3; p65; RELA; TF65; Transcription factor p65; v-rel avian reticuloendotheliosis viral oncogene homolog A (nuclear factor of kappa light polypeptide gene enhancer in B-cells 3 (p65)); v-rel reticuloendotheliosis viral oncogene homolog A (avian); v-rel reticuloendotheliosis viral oncogene homolog A; nuclear factor of kappa light polypeptide gene enhancer in B-cells 3; anti-NFKP p65 antibody

### PRODUCT SPECIFICATIONS

|                                                    |                                                                                                                                                                        |
|----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                               | Rabbit                                                                                                                                                                 |
| Clonality                                          | Polyclonal                                                                                                                                                             |
| Isotype                                            | IgG                                                                                                                                                                    |
| Specificity                                        | NFKP p65 antibody detects endogenous levels of NFKP p65 protein around Serine 276                                                                                      |
| Form/Format                                        | Supplied in PBS buffer (without Mg2+and Ca2+), pH 7.4, 150mM NaCl with 0.02% sodium azide and 50% glycerol                                                             |
| Concentration                                      | 1 mg/ml (varies by lot)                                                                                                                                                |
| Applicable Applications for anti-NFKP p65 antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                                                                                          |
| Biological Significance                            | NFKP p65 is more abundant and regulates the expression of more genes than other NFKB heterodimers and homodimers.                                                      |
| Cross-Reactivity                                   | Mouse, Rat                                                                                                                                                             |
| Immunogen                                          | NFKP p65 antibody was raised in Rabbit using synthesized non-phosphopeptide derived from human NFKP p65 around the phosphorylation site of Serine 276 as the immunogen |
| Preparation and Storage                            | Aliquot and store at -20 degree C. Avoid repeated freeze thaw cycles                                                                                                   |

### IMAGES

#### WB (Western Blot)

Western blot analysis of extracts from HeLa cells. Lane 1: Using NF-kB p65 antibody. Lane 2: The same antibody preincubated with synthesized peptide.

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of paraffin-embedded breast carcinoma. Left: Using NF-kB p65 antibody; Right: The same antibody preincubated with synthesized peptide.

### ADDITIONAL INFORMATION

|                                                        |                                                            |
