

Mouse GST Monoclonal Antibody | anti-GST antibody

GST Antibody

CATALOG # AAA108675	HOST Mouse	APPLICATIONS ELISA, Western Blot
-------------------------------	----------------------	--

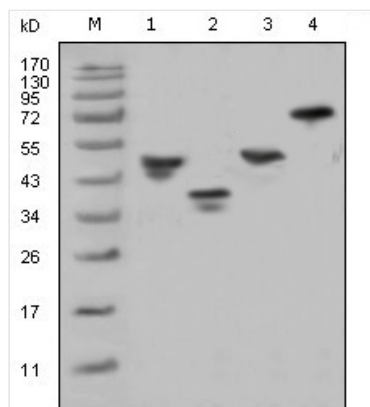

PRODUCT SYNONYMS

GST; Monoclonal Antibody; GST Antibody; anti-GST antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Clone Number	6G9C6; 6G9B9
Form/Format	Purified antibody in PBS containing 0.03% sodium azide
Sequence Length	185
Applicable Applications for anti-GST antibody	ELISA, WB (Western Blot)
Immunogen	Purified fusion protein with GST protein tag expressed in E. Coli.
Preparation and Storage	Store at 4 degree C, for long term storage, store at -20 degree C

IMAGES

WB (Western Blot)

Figure 1. Western blot analysis using GST mouse mAb against various fusion protein with GST tag.

ADDITIONAL INFORMATION

Related Product Information for anti-GST antibody	Epitope tagging offers an easy and universal strategy for the identification and purification of proteins derived by recombinant DNA technology. Expression vectors with Glutathione S-transferase (GST) tag have been developed widely for both prokaryotic and eukaryotic systems, because GST can provide both an easily detectable Tag and a simple purification process with little effect on the biological function of the protein encoded by inserted cDNA sequences. Antibodies of anti-GST tag are useful for checking protein expression using immunoblotting, immunoprecipitation and immunostaining techniques, as well as for immunoaffinity purification of protein expressed in vitro.
Product Categories/Family for anti-GST antibody	Autophagy antibody; Cancer; Cardiovascular; Cell Biology; Epigenetics & Nuclear Signaling; Developmental Biologys; Immunology; Drug Discovery Products; Metabolism; Neuroscience; Signal Transduction; Stem Cells

NCBI AND UNIPROT INFORMATION

NCBI GI #	658299595
NCBI Official Full Name	Gst
UniProt Protein Name	Gst
UniProt Gene Name	gst

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
