### PRODUCT SYNONYMS

CDKN2B; Polyclonal Antibody; CDKN2B Antibody; anti-CDKN2B antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                                                    |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                             |
| Reactivity                                       | Human                                                                                                                              |
| Clonality                                        | Polyclonal                                                                                                                         |
| Form/Format                                      | Purified by peptide affinity column containing 1% BSA and 0.02% NaN <sub>3</sub>                                                   |
| Applicable Applications for anti-CDKN2B antibody | IHC (Immunohistochemistry), WB (Western Blot), ELISA (Peptide ELISA)                                                               |
| Preparation and Storage                          | Already reconstituted in 200ul sterile H <sub>2</sub> O. The antibody is stable for at least one year when stored at -20 degree C. |
