

Mouse His Tag Monoclonal Antibody

His Tag Antibody

CATALOG #
AAA110320

HOST
Mouse

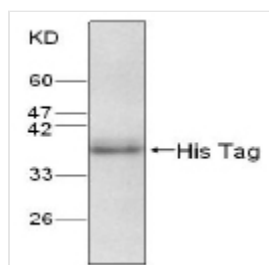

PRODUCT SYNONYMS

His Tag; Monoclonal Antibody; His Tag Antibody; anti-His Tag antibody

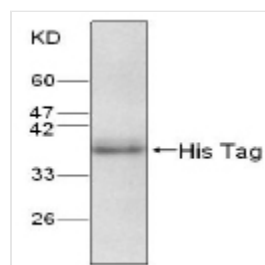

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG1
Specificity	This antibody specifically recognizes the 6X His-Tag at C-terminal or N-terminal of recombinant proteins, which can be used to detect His-Tag fusion protein of various expression vector.
Form/Format	Each vial contains 100 ug lyophilized IgG.
Immunogen	Synthetic peptide corresponding to fragment (HHHHHH) His Tag
Preparation and Storage	The antibody may be stored at room temperature for 1 year at lyophilized form. Additionally, antibody may be stored at 2 degree C to 8 degree C for up to 2-3 weeks without detectable loss of activity after reconstituted in ddH2O. Avoid repeated freeze-thaw cycles of the diluted antibody.

ADDITIONAL INFORMATION

Related Product Information for anti-His Tag antibody	Purified mouse monoclonal antibody generated using synthetic peptide His Tag as immunogen.
Product Categories/Family for anti-His Tag antibody	Plant antibody

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
