

## NFkappaB-p65 Antibody | anti-RELA antibody

NFkappaB-p65 (Phospho-Ser276) Antibody

|                               |                                        |                                                                               |
|-------------------------------|----------------------------------------|-------------------------------------------------------------------------------|
| CATALOG #<br><b>AAA110891</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Immunofluorescence, Immunohistochemistry, Western Blot</b> |
|-------------------------------|----------------------------------------|-------------------------------------------------------------------------------|

### PRODUCT SYNONYMS

NFkappaB-p65; NFkappaB-p65 (Phospho-Ser276) Antibody; anti-RELA antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                                                                                                                     |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity                                     | Human, Mouse, Rat                                                                                                                                                                                                                                   |
| Specificity                                    | NF-kappaB p65 (phospho-Ser276) antibody detects endogenous levels of NF-kappaB p65 only when phosphorylated at serine 276.                                                                                                                          |
| Purity/Purification                            | Affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific phosphopeptide. The antibody against non-phosphopeptide was removed by chromatography using non-phosphopeptide corresponding to the phosphorylation site. |
| Form/Format                                    | In phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                                                                                                      |
| Sequence Length                                | 548                                                                                                                                                                                                                                                 |
| Applicable Applications for anti-RELA antibody | IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                                                                                                                                                                              |
| Immunogen                                      | The antiserum was produced against synthesized phosphopeptide derived from human NF-kappaB p65 around the phosphorylation site of serine 276 (R-P-SP-D-R).                                                                                          |
| Preparation and Storage                        | Store at -20 degree C for 1 year                                                                                                                                                                                                                    |

### IMAGES

#### WB (Western Blot)

Western blot analysis of extract from HeLa cells using NF-kappaB p65 (phospho-Ser276) antibody.

#### IHC (Immunohistochemistry)

P-Peptide-+ Immunohistochemical analysis of paraffin-embedded human breast carcinoma tissue using NF-kappaB p65 (phospho-Ser276) antibody.

### ADDITIONAL INFORMATION

|                                                  |                                                                                                                                                                                                                   |
