

## Human Enhancer Of Zeste Homolog 2 (EZH2) ELISA Kit | EZH2 elisa kit

Human Enhancer Of Zeste Homolog 2 (EZH2) ELISA Kit

CATALOG #  
**AAA11215**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Enhancer Of Zeste Homolog 2 (EZH2); Human Enhancer Of Zeste Homolog 2 (EZH2) ELISA Kit; EZH2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                            |
| Sequence Length         | 746                                                                                                                                                                                              |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Samples                 | Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids                                                                                                   |
| Detection Range         | 0.05-20ng/ml                                                                                                                                                                                     |
| Sensitivity             | 0.021ng/ml                                                                                                                                                                                       |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for EZH2 elisa kit

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Human EZH2 antibody. EZH2 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Human EZH2 Antibody is added and binds to EZH2 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated EZH2 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Human EZH2. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Human Enhancer Of Zeste Homolog 2 (also known as EZH2) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.
