

Horse cortisol (COR) ELISA Kit | COR elisa kit

Horse cortisol, COR ELISA Kit

CATALOG #
AAA112719

REACTIVITY
Horse

PRODUCT SYNONYMS

cortisol (COR); Horse cortisol; COR ELISA Kit; Horse cortisol (COR) ELISA kit; COR elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Horse
Specificity	This assay has high sensitivity and excellent specificity for detection of horse COR. No significant cross-reactivity or interference between horse COR and analogues was observed.
Samples	Serum, plasma and tissue homogenates
Assay Type	Quantitative Competitive
Detection Range	0.049 ng/ml-200 ng/ml
Sensitivity	< 0.049ng/ml
Intra-assay Precision	Intra-assay Precision (Precision within an assay): CV%<8%. Three samples of known concentration were tested twenty times on one plate to assess.
Inter-assay Precision	Inter-assay Precision (Precision between assays): CV%<10%. Three samples of known concentration were tested in twenty assays to assess.
Preparation and Storage	Unopened test kits should be stored at 2 to 8 degree C upon receipt. Please refer to pdf manual for further storage instructions.

ADDITIONAL INFORMATION

Related Product Information for COR elisa kit

Principle of the Assay: This assay employs the competitive inhibition enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with an antigen. Standards or samples are added to the appropriate microtiter plate wells with antibody specific for COR and Horseradish Peroxidase (HRP) conjugated goat-anti-rabbit antibody. The competitive inhibition reaction is launched between with pre-coated COR and COR in samples. A substrate solution is added to the wells and the color develops in opposite to the amount of COR in the sample. The color development is stopped and the intensity of the color is measured.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
