

## Heterogeneous nuclear ribonucleoprotein A3 (HNRNPA3) Recombinant Protein | HNRNPA3 recombinant protein

Recombinant Human Heterogeneous nuclear ribonucleoprotein A3 (HNRNPA3)

CATALOG #  
**AAA113997**

HOST  
**E Coli or Yeast or Baculovirus or Mammalian Cell**

### PRODUCT SYNONYMS

Heterogeneous nuclear ribonucleoprotein A3 (HNRNPA3); Recombinant Human Heterogeneous nuclear ribonucleoprotein A3 (HNRNPA3); HNRNPA3 recombinant protein

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | E Coli or Yeast or Baculovirus or Mammalian Cell                                                                                                                                                                                                                                                                                                                                                                                            |
| Purity/Purification     | Greater or equal to 85% purity as determined by SDS-PAGE.                                                                                                                                                                                                                                                                                                                                                                                   |
| Form/Format             | Lyophilized or liquid (Format to be determined during the manufacturing process)                                                                                                                                                                                                                                                                                                                                                            |
| Sequence Positions      | 1-378. | Species                 | Human                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Preparation and Storage | Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended.                                                                                                                                                                                                                                         |
