

## Hexon protein (PII) Recombinant Protein | PII recombinant protein

Recombinant Human adenovirus B serotype 3 Hexon protein (PII), partial

CATALOG #  
**AAA114634**

HOST  
**E Coli or Yeast or Baculovirus or Mammalian Cell**

### PRODUCT SYNONYMS

Hexon protein (PII); Recombinant Human adenovirus B serotype 3 Hexon protein (PII); partial; PII recombinant protein

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                                                                                 |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | E Coli or Yeast or Baculovirus or Mammalian Cell                                                                                                                                                                                                                |
| Purity/Purification     | Greater or equal to 85% purity as determined by SDS-PAGE.                                                                                                                                                                                                       |
| Form/Format             | Lyophilized or liquid (Format to be determined during the manufacturing process)                                                                                                                                                                                |
| Sequence Positions      | 625-853. Partial                                                                                                                                                                                                                                                |
| Sequence                | MLRNDTNDQS FNDYLSAANM LYIPANATN IPISIPSRNW AAFRGWSFTR LKTKETPSLG SGFDPYFVYS<br>GSIPYLDGTF YLNHTFKKVA IMFDSSVSWP GNDRLSPNE FEIKRTVDGE GYNVAQCNT KDWFLVQMLA<br>NYNIGYQGFY IPEGYKDRMY SFFRNFPMS RQVDEVNYT DYKAVTLPYQ HNNSGFVGYL APTMRQGEPY<br>PANYPYPLIG TTAVKSVTQ |
| Species                 | Human adenovirus B serotype 3 (HAdV-3) (Human adenovirus 3)                                                                                                                                                                                                     |
| Preparation and Storage | Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended.                                                             |

### NCBI AND UNIPROT INFORMATION

|                            |               |
|----------------------------|---------------|
| NCBI GI #                  | 6016200       |
| UniProt Accession #        | P36849        |
| Molecular Weight           | 106,088 Da    |
| NCBI Official Full Name    | Hexon protein |
| UniProt Protein Name       | Hexon protein |
| UniProt Gene Name          | L3            |
| UniProt Synonym Gene Names | CP-H          |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
