

# Lymphocyte antigen 6 complex locus protein G6c (LY6G6C) Recombinant Protein | LY6G6C recombinant protein

Recombinant Human Lymphocyte antigen 6 complex locus protein G6c (LY6G6C)

|                               |                                                                 |
|-------------------------------|-----------------------------------------------------------------|
| CATALOG #<br><b>AAA115322</b> | HOST<br><b>E Coli or Yeast or Baculovirus or Mammalian Cell</b> |
|-------------------------------|-----------------------------------------------------------------|

## PRODUCT SYNONYMS

Lymphocyte antigen 6 complex locus protein G6c (LY6G6C); Recombinant Human Lymphocyte antigen 6 complex locus protein G6c (LY6G6C); LY6G6C recombinant protein

## PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                     |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | E Coli or Yeast or Baculovirus or Mammalian Cell                                                                                                                                                    |
| Purity/Purification     | Greater or equal to 85% purity as determined by SDS-PAGE.                                                                                                                                           |
| Form/Format             | Lyophilized or liquid (Format to be determined during the manufacturing process)                                                                                                                    |
| Sequence Positions      | 19-99aa; Full Length of Mature Protein                                                                                                                                                              |
| Sequence                | DIRCHSCYKV PVLGCVDRQS CRLEPGQQCL TTHAYLGKMW VFSNLRGTP EEPQAEAFNQ TNRKLGLTYN TTCCNKDNCN S                                                                                                            |
| Species                 | Human                                                                                                                                                                                               |
| Preparation and Storage | Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended. |
