

## HTLV-1 basic zipper factor (HBZ) Recombinant Protein | HBZ recombinant protein

Recombinant Human T-cell leukemia virus 1 HTLV-1 basic zipper factor (HBZ)

CATALOG #  
AAA115925

HOST  
E Coli or Yeast or Baculovirus or Mammalian Cell

### PRODUCT SYNONYMS

HTLV-1 basic zipper factor (HBZ); Recombinant Human T-cell leukemia virus 1 HTLV-1 basic zipper factor (HBZ); HBZ recombinant protein

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                    | E Coli or Yeast or Baculovirus or Mammalian Cell                                                                                                                                                                                         |
| Purity/Purification     | Greater or equal to 85% purity as determined by SDS-PAGE.                                                                                                                                                                                |
| Form/Format             | Lyophilized or liquid (Format to be determined during the manufacturing process)                                                                                                                                                         |
| Sequence Positions      | 1-209aa; Full Length                                                                                                                                                                                                                     |
| Sequence                | MVNFVSAGLF RCLPVSCPED LLVEELVDGL LSLEELKDK EEEEAVLDGL LSLEESRGR LRRGPPGEKA<br>PPRGETHRDR QRRAEKRRR KKEREKEEEK QTAEYLKRKE EEKARRRRRA EKKAADVARR KQEEQERRER<br>KWRQGAEKAK QHSARKEKMQ ELGIDGYTRQ LEGEVESLEA ERRKLLQEKE DLMGEVNYWQ GRLEAMWLQ |
| Species                 | Human T-cell leukemia virus 1 (strain Japan ATK-1 subtype A) (HTLV-1)                                                                                                                                                                    |
| Preparation and Storage | Store at -20 degrees C. For long-term storage, store at -20 degrees C or -80 degrees C. Store working aliquots at 4 degrees C for up to one week. Repeated freezing and thawing is not recommended.                                      |

### NCBI AND UNIPROT INFORMATION

|                            |                            |
|----------------------------|----------------------------|
| NCBI GI #                  | 254800145                  |
| UniProt Accession #        | P0C746                     |
| Molecular Weight           | 32.3 kDa                   |
| NCBI Official Full Name    | HTLV-1 basic zipper factor |
| UniProt Protein Name       | HTLV-1 basic zipper factor |
| UniProt Gene Name          | HBZ                        |
| UniProt Synonym Gene Names | HBZ                        |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
