### PRODUCT SYNONYMS

Tubulin beta chain A; Polyclonal Antibody; Rabbit anti-human Tubulin beta chain A polyclonal Antibody; Tubulin beta-5 chain TUBB TUBB5 OK/SW-cl.56; anti-Tubulin beta chain A antibody

### PRODUCT SPECIFICATIONS

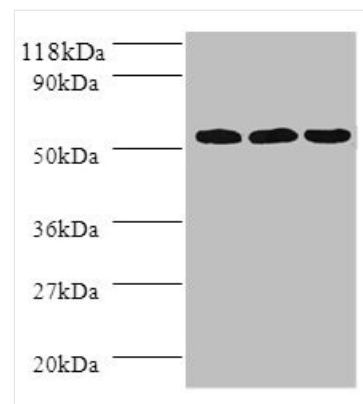

|                                                                |                                                                                                                |
|----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| Host                                                           | Rabbit                                                                                                         |
| Reactivity                                                     | Human                                                                                                          |
| Clonality                                                      | Polyclonal                                                                                                     |
| Isotype                                                        | IgG                                                                                                            |
| Purity/Purification                                            | Caprylic Acid Ammonium Sulfate Precipitation Purified                                                          |
| Applicable Applications for anti-Tubulin beta chain A antibody | WB (Western Blot), ELISA                                                                                       |
| Storage Buffer                                                 | Preservative: 0.03% Proclin 300<br>Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                               |
| Conjugate                                                      | Non-conjugated                                                                                                 |
| Immunogen                                                      | Peptide                                                                                                        |
| Santa Cruz Alternative                                         | Potential replacement for Santa Cruz Biotechnology antibody catalog# sc-86255                                  |
| Preparation and Storage                                        | Shipped at 4 degree C. Upon delivery aliquot and store at -20 degree C or -80 degree C. Avoid repeated freeze. |

ADDITIONAL INFORMATION

|                                                                    |                                                                                                                                                                                   |
|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-Tubulin beta chain A antibody | Tubulin is the major constituent of microtubules. It binds two moles of GTP, one at an exchangeable site on the beta chain and one at a non-exchangeable site on the alpha chain. |
|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
