

## Rat extracellular superoxide dismutase [Cu-Zn], (Cu/Zn-SOD/SOD3) ELISA Kit | Cu/Zn-SOD/SOD3 elisa kit

Rat extracellular superoxide dismutase [Cu-Zn], (Cu/Zn-SOD/SOD3) ELISA Kit

CATALOG #  
**AAA120872**

REACTIVITY  
**Rat**

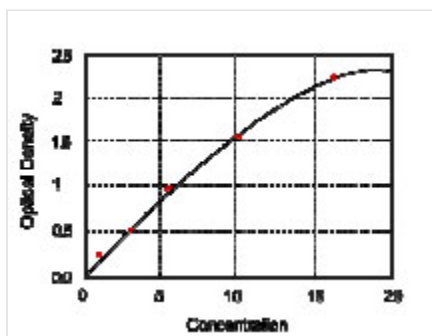

### PRODUCT SYNONYMS

extracellular superoxide dismutase [Cu-Zn]; (Cu/Zn-SOD/SOD3); Rat extracellular superoxide dismutase [Cu-Zn]; (Cu/Zn-SOD/SOD3) ELISA Kit; Cu/Zn-SOD/SOD3 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                              |
| Samples                 | Serum, plasma, cell culture supernates, ascites, tissue homogenates or other biological fluids                                                                                                   |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 0.5-100ng/mL                                                                                                                                                                                     |
| Sensitivity             | 0.29ng/mL                                                                                                                                                                                        |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

ADDITIONAL INFORMATION

|                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for Cu/Zn-SOD/SOD3 elisa kit | <p>Intended Uses: This sandwich kit is for the accurate quantitative detection of Rat extracellular superoxide dismutase [Cu-Zn] (also known as Cu,Zn-SOD,SOD3) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.</p> <p>Principle of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Rat Cu,Zn-SOD,SOD3 antibody. Cu,Zn-SOD,SOD3 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Rat Cu,Zn-SOD,SOD3 Antibody is added and binds to Cu,Zn-SOD,SOD3 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated Cu,Zn-SOD,SOD3 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Rat Cu,Zn-SOD,SOD3. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.</p> |
