

Rat Tau Proteins (tau proteins) ELISA Kit

Rat Tau Proteins (tau proteins) ELISA Kit

CATALOG #
AAA121035

REACTIVITY
Rat

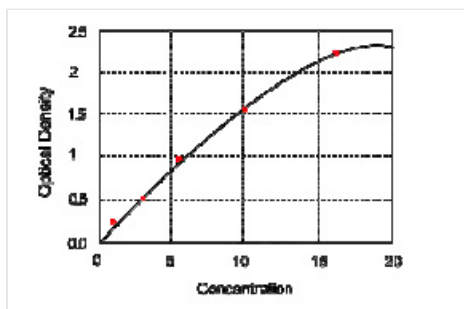

PRODUCT SYNONYMS

Tau Proteins (tau proteins); Rat Tau Proteins (tau proteins) ELISA Kit; Tau Proteins (tau proteins) elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, Plasma, Cell Culture Supernates, Cell Lysates, Tissue Homogenates
Assay Type	Quantitative Sandwich
Detection Range	20ng/L-3800ng/L
Sensitivity	13.08ng/L
Intra-assay Precision	Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%
Inter-assay Precision	Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for Tau Proteins (tau proteins) elisa kit

Intended Uses: This sandwich kit is for the accurate quantitative detection of Rat Syntaxin-16 (also known as STX16) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

Principle of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Rat STX16 antibody. STX16 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Rat STX16 Antibody is added and binds to STX16 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated STX16 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Rat STX16. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
