

Rat Phosphofructokinase Muscle (PFKM) ELISA Kit | PFKM elisa kit

Rat Phosphofructokinase Muscle (PFKM) ELISA Kit

CATALOG #
AAA121157

REACTIVITY
Rat

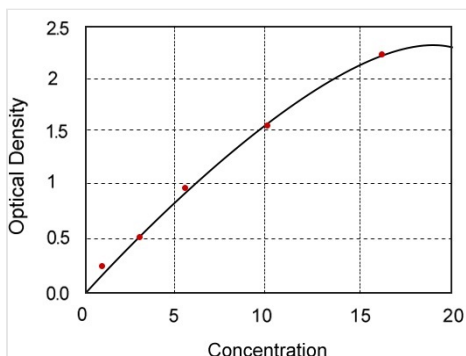

PRODUCT SYNONYMS

Phosphofructokinase Muscle (PFKM); Rat Phosphofructokinase Muscle (PFKM) ELISA Kit; PFKM elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Rat
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	0.05ng/ml - 20ng/ml
Sensitivity	0.022ng/ml
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for PFKM elisa kit

Intended Uses: This sandwich kit is for the accurate quantitative detection of Rat Phosphofructokinase Muscle (also known as PFKM) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Rat PFKM antibody. PFKM present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Rat PFKM Antibody is added and binds to PFKM in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated PFKM antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Rat PFKM. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
