| Form/Format                                        | FITC<br>Purified IgG conjugated to Fluorescein Isothiocyanate Isomer 1 (FITC) - liquid                                                                                                                                                                                                 |
| Concentration                                      | IgG concentration 0.1 mg/ml (varies by lot)                                                                                                                                                                                                                                            |
| Sequence Length                                    | 244                                                                                                                                                                                                                                                                                    |
| Applicable Applications for anti-DECTIN-1 antibody | FCM/FACS (Flow Cytometry)                                                                                                                                                                                                                                                              |
| Application Notes                                  | Flow Cytometry: Use 10ul of the suggested working dilution to label 106 cells in 100ul<br><b>Flow Cytometry:</b> Minimum Dilution: Neat; Maximum Dilution: 1/10                                                                                                                        |
| Perservative Stabilisers                           | 0.09% Sodium Azide<br>1% Bovine Serum Albumin<br>Preparation                                                                                                                                                                                                                           |
| Immunogen                                          | Dectin-1 transfected NIH3T3 cells and recombinant soluble Dectin-1<br>Fusion Partners                                                                                                                                                                                                  |
| Target Species                                     | Mouse                                                                                                                                                                                                                                                                                  |
| Preparation and Storage                            | Store at 4 degree C. DO NOT FREEZE. This product should be stored undiluted. This product is photosensitive and should be protected from light. Should this product contain a precipitate we recommend microcentrifugation before use.<br>Shelf Life: 18 months from date of despatch. |

**Application Data**  
Staining of mouse peritoneal macrophages with Rat anti Mouse Beta-glucan Receptor: FITC

**Application Data**  
Immunoperoxidase staining of a mouse lymph node cryosection with Rat anti Mouse Dectin-1 antibody, clone 2A11 followed by horseradish peroxidase conjugated Goat anti Rat IgG antibody . Medium power

**Application Data**  
Immunoperoxidase staining of a mouse lymph node cryosection with Rat anti Mouse Dectin-1 antibody, clone 2A11 followed by horseradish peroxidase conjugated Goat anti Rat IgG antibody . Low power

**Application Data**  
Staining of mouse peripheral blood monocytes with Rat anti Mouse Beta-glucan Receptor

**Application Data**  
Staining of mouse peripheral blood granulocytes with Rat anti Mouse Beta-glucan Receptor:Biotin

**Application Data**  
Immunoperoxidase staining of a mouse lymph node cryosection with Rat anti Mouse Dectin-1 antibody, clone 2A11 followed by horseradish peroxidase conjugated Goat anti Rat IgG antibody . High power
