

## Porcine IFN Lambda 3 (IL28B) ELISA Kit | IL28B elisa kit

Porcine IFN Lambda 3 (IL28B) ELISA Kit

CATALOG #  
**AAA121377**

REACTIVITY  
**Porcine**

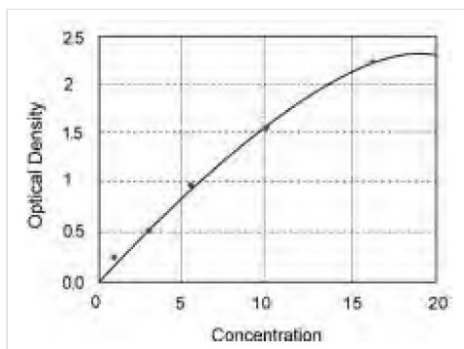

### PRODUCT SYNONYMS

IFN Lambda 3 (IL28B); Porcine IFN Lambda 3 (IL28B) ELISA Kit; IL28B elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Porcine                                                                                                                                                                                          |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Samples                 | Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids                                                                                                   |
| Detection Range         | 0.5-300ng/L                                                                                                                                                                                      |
| Sensitivity             | 0.21ng/L                                                                                                                                                                                         |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for IL28B elisa kit

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Porcine IL28B antibody. IL28B present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Porcine IL28B Antibody is added and binds to IL28B in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated IL28B antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Porcine IL28B. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Porcine IFN Lambda 3 (also known as IL28B) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
