

## Mouse CXCR4-chemokine receptor 4, CXCR4 ELISA Kit | CXCR4 elisa kit

Mouse CXCR4-chemokine receptor 4, CXCR4 ELISA Kit

CATALOG #  
**AAA121401**

REACTIVITY  
**Mouse**

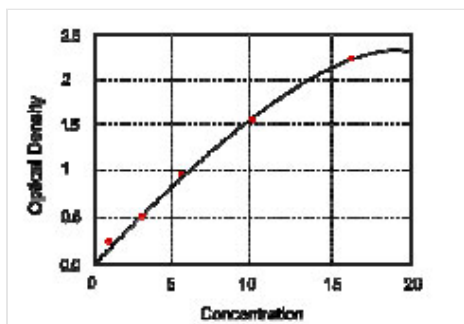

### PRODUCT SYNONYMS

CXC-chemokine receptor 4; CXCR4; Mouse CXCR4-chemokine receptor 4; CXCR4 ELISA Kit; CXCR4 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                            |
| Samples                 | Serum, plasma, cell culture supernates, cell lysates, tissue homogenates                                                                                                                         |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 7ng/L - 1500ng/L                                                                                                                                                                                 |
| Sensitivity             | 3.26ng/L                                                                                                                                                                                         |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for CXCR4 elisa kit

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Mouse CXCR4-chemokine receptor 4 (also known as CXCR4) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Mouse CXCR4 antibody. CXCR4 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Mouse CXCR4 Antibody is added and binds to CXCR4 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated CXCR4 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Mouse CXCR4. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
