

## Mouse Prostaglandin E2 ELISA Kit

Mouse Prostaglandin E2 ELISA Kit

CATALOG #  
**AAA122957**

REACTIVITY  
**Mouse**

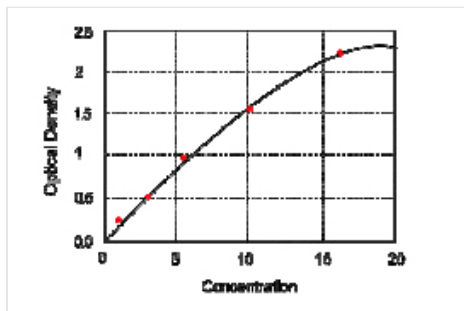

### PRODUCT SYNONYMS

Prostaglandin E2; Mouse Prostaglandin E2 ELISA Kit; Prostaglandin E2 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                            |
| Samples                 | Serum, Plasma, Cell Culture Supernates, Cell Lysates, Tissue Homogenates                                                                                                                         |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 10ng/L-2000ng/L                                                                                                                                                                                  |
| Sensitivity             | 4.39ng/L                                                                                                                                                                                         |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for Prostaglandin E2 elisa kit

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Mouse Pre-mRNA-processing Factor 40 Homolog A (also known as PRPF40A) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Mouse PRPF40A antibody. PRPF40A present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Mouse PRPF40A Antibody is added and binds to PRPF40A in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated PRPF40A antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Mouse

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
