

## Rat Syntaxin-16, STX16 ELISA Kit | STX16 elisa kit

Rat Syntaxin-16, STX16 ELISA Kit

CATALOG #  
**AAA123085**

REACTIVITY  
**Rat**

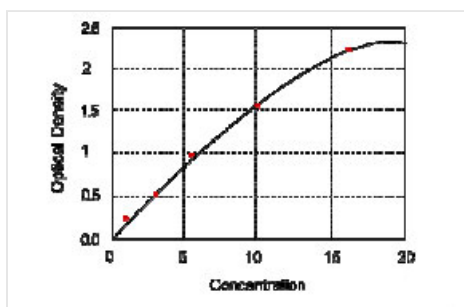

### PRODUCT SYNONYMS

Syntaxin-16; STX16; Rat Syntaxin-16; STX16 ELISA Kit; STX16 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                                                                              |
| Sequence Length         | 326                                                                                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernates, Cell Lysates, Tissue Homogenates                                                                                                                         |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 0.5ng/ml-100ng/ml                                                                                                                                                                                |
| Sensitivity             | 0.29ng/ml                                                                                                                                                                                        |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for STX16 elisa kit

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Rat Super Oxidase Dismutase (also known as SOD) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Rat SOD antibody. SOD present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Rat SOD Antibody is added and binds to SOD in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated SOD antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Rat SOD. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.
