

## Mouse B- and T-lymphocyte attenuator, BTLA ELISA Kit | BTLA elisa kit

Mouse B- and T-lymphocyte attenuator, BTLA ELISA Kit

CATALOG #  
**AAA123313**

REACTIVITY  
**Mouse**

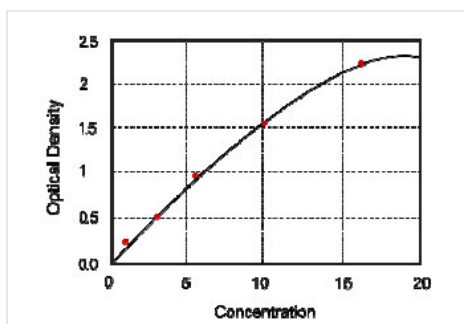

### PRODUCT SYNONYMS

B- and T-lymphocyte attenuator; BTLA; Mouse B- and T-lymphocyte attenuator; BTLA ELISA Kit; BTLA elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                            |
| Sequence Length         | 289                                                                                                                                                                                              |
| Samples                 | Serum, plasma, cell culture supernates, cell lysates, tissue homogenates                                                                                                                         |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 0.3ng/ml - 90ng/ml                                                                                                                                                                               |
| Sensitivity             | 0.12ng/ml                                                                                                                                                                                        |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for BTLA elisa kit

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Mouse B- and T-lymphocyte attenuator (also known as BTLA) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Mouse BTLA antibody. BTLA present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Mouse BTLA Antibody is added and binds to BTLA in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated BTLA antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Mouse BTLA. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

| NCBI Official Full Name   | B- and T-lymphocyte attenuator isoform 1 |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
