

## Human ATP-binding cassette sub-family G member 5, ABCG5 ELISA Kit | ABCG5 elisa kit

Human ATP-binding cassette sub-family G member 5, ABCG5 ELISA Kit

CATALOG #  
**AAA123732**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

ATP-binding cassette sub-family G member 5; ABCG5; Human ATP-binding cassette sub-family G member 5; ABCG5 ELISA Kit; ABCG5 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                            |
| Sequence Length         | 651                                                                                                                                                                                              |
| Samples                 | Serum, plasma, cell culture supernates, cell lysates, tissue homogenates                                                                                                                         |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 0.05ng/ml - 20ng/ml                                                                                                                                                                              |
| Sensitivity             | 0.024ng/ml                                                                                                                                                                                       |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

| Related Product Information for ABCG5 elisa kit | <p>Intended Uses: This sandwich kit is for the accurate quantitative detection of Human ATP-binding Cassette Sub-family G Member 5 (also known as ABCG5) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.</p> <p>Principle of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Human ABCG5 antibody. ABCG5 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Human ABCG5 Antibody is added and binds to ABCG5 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated ABCG5 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Human ABCG5. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.</p> |
