

Fish Nuclear Factor Kappa B, NFKB ELISA Kit | NFKB elisa kit

Fish Nuclear Factor Kappa B, NFKB ELISA Kit

CATALOG #
AAA123877

REACTIVITY
Fish

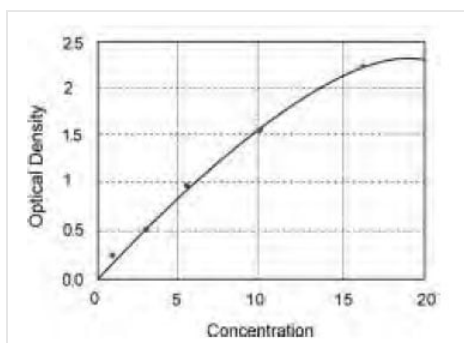

PRODUCT SYNONYMS

Nuclear Factor Kappa B; NFKB; Fish Nuclear Factor Kappa B; NFKB ELISA Kit; NFKB elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Fish
Assay Type	Quantitative Sandwich
Samples	Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids
Detection Range	18.75-1200ng/ml
Sensitivity	10.08ng/ml
Intra-assay Precision	Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%
Inter-assay Precision	Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10%

ADDITIONAL INFORMATION

Related Product Information for NFKB elisa kit

Principle of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Fish NFKB antibody. NFKB present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Fish NFKB Antibody is added and binds to NFKB in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated NFKB antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Fish NFKB. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

Intended Uses: This sandwich kit is for the accurate quantitative detection of Fish Nuclear factor-kappa B (also known as NFKB) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
