

## Human Elongation factor 1-alpha 1, EEF1A1 ELISA Kit | EEF1A1 elisa kit

Human Elongation factor 1-alpha 1, EEF1A1 ELISA Kit

CATALOG #  
**AAA123900**

REACTIVITY  
**Human**

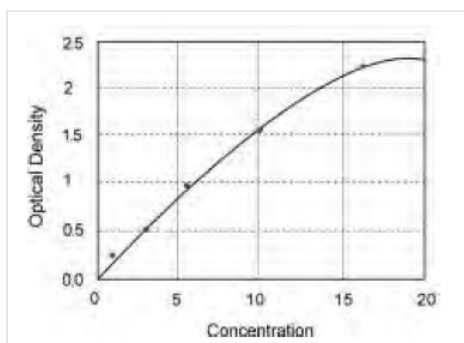

### PRODUCT SYNONYMS

Elongation factor 1-alpha 1; EEF1A1; Human Elongation factor 1-alpha 1; EEF1A1 ELISA Kit; EEF1A1 elisa kit

### PRODUCT SPECIFICATIONS

|                       |                                                                                                                                                                                                  |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity            | Human                                                                                                                                                                                            |
| Assay Type            | Quantitative Sandwich                                                                                                                                                                            |
| Samples               | Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids                                                                                                   |
| Detection Range       | 0.19-12ng/ml                                                                                                                                                                                     |
| Sensitivity           | 0.11ng/ml                                                                                                                                                                                        |
| Intra-assay Precision | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |

### ADDITIONAL INFORMATION

#### Related Product Information for EEF1A1 elisa kit

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Human EEF1A1 antibody. EEF1A1 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Human EEF1A1 Antibody is added and binds to EEF1A1 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated EEF1A1 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Human EEF1A1. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Human Elongation factor 1-alpha 1 (also known as EEF1A1) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
