

Human Soluble Tyrosine-protein kinase receptor UFO, AXL ELISA Kit | AXL elisa kit

Human Soluble Tyrosine-protein kinase receptor UFO, AXL ELISA Kit

CATALOG #
AAA123915

REACTIVITY
Human

PRODUCT SYNONYMS

Soluble Tyrosine-protein kinase receptor UFO; AXL; Human Soluble Tyrosine-protein kinase receptor UFO; AXL ELISA Kit; AXL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Assay Type	Quantitative Sandwich
Samples	Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids
Detection Range	20-3800ng/L
Sensitivity	10.77ng/L

ADDITIONAL INFORMATION

Related Product Information for AXL elisa kit

Principle of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Human sAXL antibody. sAXL present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Human sAXL Antibody is added and binds to sAXL in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated sAXL antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Human sAXL. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

Intended Uses: This sandwich kit is for the accurate quantitative detection of Human Soluble Tyrosine-protein kinase receptor UFO (also known as sAXL) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
