

Human Tetranectin, CLEC3B ELISA Kit | CLEC3B elisa kit

Human Tetranectin, CLEC3B Primacu ELISA Kit

CATALOG #
AAA124189

REACTIVITY
Human

PRODUCT SYNONYMS

Tetranectin; CLEC3B; Human Tetranectin; CLEC3B Primacu ELISA Kit; TNA; CLEC3B elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Assay Type	Sandwich
Samples	Serum, plasma, cell culture supernates
Detection Range	54.69-3500pg/mL
Sensitivity	14.13pg/mL
Standard Solution	35ng/mL
Assay Time	3.5h
Preparation and Storage	Store at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for CLEC3B elisa kit

Tetranectin (TN), also known as C-type lectin domain family 3, member B (CLEC3B) is a member of the C-type lectin Family. It is plasminogen kringle 4 binding protein and regulates fibrinolysis and proteolytic processes via binding to plasminogen. Tetranectin has been suggested to play a role in tissue remodeling, due to its ability to stimulate plasminogen activation and its expression in developing tissues such as developing bone and muscle. Tetranectin enhances plasminogen activation by a tissue-type plasminogen activator so that it has been suggested to play a role in tissue remodeling. Tetranectin may play a role in the wound healing process. Tetranectin may play a role in neurological diseases and may serve as a test aid in multiple sclerosis (MS). Tetranectin was found significantly under-expressed in both serum and saliva of metastatic oral squamous cell carcinoma (OSCC) compared to primary OSCC. Tetranectin is thought to enhance proteolytic processes enabling tumor cells to invade and metastasize.

Product Categories/Family for CLEC3B
elisa kit

Primacu ELISA Kit; Cardiovascular; Signal transduction

NCBI AND UNIPROT INFORMATION

NCBI GI #	317373499
NCBI GeneID	7123
UniProt Accession #	P05452; Q6FGX6
Molecular Weight	22,537 Da
NCBI Official Full Name	Tetranectin
NCBI Official Synonym Full Names	C-type lectin domain family 3, member B
NCBI Official Symbol	CLEC3B
NCBI Official Synonym Symbols	TN; TNA
NCBI Protein Information	tetranectin; plasminogen kringle 4-binding protein; tetranectin (plasminogen binding protein); tetranectin (plasminogen-binding protein)
UniProt Protein Name	Tetranectin
UniProt Gene Name	CLEC3B
UniProt Synonym Gene Names	TNA; TN
UniProt Entry Name	TETN_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
