

Influenza B Nucleoprotein ELISA Kit

Influenza B Nucleoprotein Primacu ELISA Kit

CATALOG #
AAA124228

REACTIVITY
Influenza B N

PRODUCT SYNONYMS

Influenza B Nucleoprotein; Influenza B Nucleoprotein Primacu ELISA Kit; Influenza B (B/Washington/02/2019) Nucleoprotein/NP; Influenza B NP; Influenza B Nucleoprotein elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Influenza B N
Assay Type	Sandwich
Samples	Verified by recombinant protein. Natural samples need to be validated by the end user.
Detection Range	39.06-2500pg/mL
Sensitivity	13.11pg/mL
Standard Solution	25ng/mL
Assay Time	3.5h
Preparation and Storage	Store at 2-8 degree C

ADDITIONAL INFORMATION

Related Product Information for Influenza B Nucleoprotein elisa kit

Influenza A viral nucleoprotein (NP) plays a critical role in virus replication and host adaptation. The influenza A virus nucleoprotein (NP) is an essential multifunctional protein that encapsidates the viral genome and functions as an adapter between the virus and the host cell machinery. NPs from all strains of influenza A viruses contain two nuclear localization signals (NLSs): a well-studied monopartite NLS1 and a less-characterized NLS2, thought to be bipartite. The nucleocapsid is a complex of the viral nucleoprotein, RNA, and several other viral proteins. The nucleoprotein forms large, RNA-bound, helical filaments and acts as a scaffold for additional viral proteins.

Product Categories/Family for Influenza B Nucleoprotein elisa kit

Primacu ELISA Kit; Microbiology

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
