

Mouse Matrilin-2 ELISA Kit | MATN2 elisa kit

Mouse Matrilin-2 PicoKine ELISA Kit

CATALOG #
AAA125234

REACTIVITY
Mouse

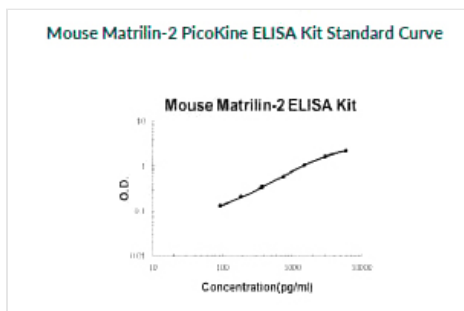

PRODUCT SYNONYMS

Matrilin-2; Mouse Matrilin-2 PicoKine ELISA Kit; Mouse Matrilin-2; matrilin 2; Matn2; MATN2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	Natural and recombinant Mouse Matn2
Samples	Cell culture supernates, serum and plasma (heparin, EDTA)
Detection Range	93.7pg/ml-6000pg/ml
Sensitivity	<50pg/ml
Intra-assay Precision	Intra-Assay Precision (Precision within an assay): Three samples of known concentration were tested on one plate to assess intra-assay precision.
Inter-assay Precision	Inter-Assay Precision (Precision across assays):Three samples of known concentration were tested in separate assays to assess inter-assay precision.
Preparation and Storage	Store at 4 degree C for 6 months. Store at -20 degree C for 12 months. Avoid multiple freeze-thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for MATN2 elisa kit	Principle of the Assay: The Picokine™ Mouse Matn2 Pre-Coated ELISA (Enzyme-Linked Immunosorbent Assay) kit is a solid phase immunoassay specially designed to measure Mouse Matn2 with a 96-well strip plate that is pre-coated with antibody specific for Matn2. The detection antibody is a biotinylated antibody specific for Matn2. The capture antibody is a monoclonal antibody from rat, the detection antibody is a biotinylated polyclonal antibody from goat. The kit contains recombinant Mouse Matn2 with immunogen: Expression system for standard: NSO, Immunogen sequence: R24-R956. The kit is analytically validated with ready to use reagents. To measure Mouse Matn2, add standards and samples to the wells, then add the biotinylated detection antibody. Wash the wells with PBS or TBS buffer, and add Avidin-Biotin-Peroxidase Complex (ABC-HRP). Wash away the unbounded ABC-HRP with PBS or TBS buffer and add TMB. TMB is substrate to HRP and will be catalyzed to produce a blue color product, which changes into yellow after adding acidic stop solution. The density of the yellow product is linearly proportional to Mouse Matn2 in the sample. Read the density of the yellow product in each well using a plate reader, and benchmark the sample wells' readings against the standard curve to determine the concentration of Mouse Matn2 in the sample.!!Background/Introduction: Matrilin-2 is a protein that in humans is encoded by the MATN2 gene. This gene is mapped to 15; 15 B3.1. This gene encodes a member of the von Willebrand factor A domain containing protein family. This family of proteins is thought to be involved in the formation of filamentous networks in the extracellular matrices of various tissues. This protein contains five von Willebrand factor A domains. The specific function of this gene has not yet been determined. Two transcript variants encoding different isoforms have been found for this gene.

NCBI AND UNIPROT INFORMATION

NCBI GI #	568990362
NCBI GeneID	17181
UniProt Accession #	O08746
NCBI Official Synonym Full Names	matrilin 2
NCBI Official Symbol	Matn2
NCBI Official Synonym Symbols	Crtm2; matrilin-2
NCBI Protein Information	matrilin-2
UniProt Protein Name	Matrilin-2
UniProt Gene Name	Matn2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
