

General Thromboxane B2 (TXB2) ELISA Kit | TXB2 elisa kit

General Thromboxane B2 (TXB2) ELISA Kit

CATALOG #
AAA129715

REACTIVITY
General

PRODUCT SYNONYMS

Thromboxane B2 (TXB2); General Thromboxane B2 (TXB2) ELISA Kit; TX-B2; TXB2 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	General
Specificity	This assay has high sensitivity and excellent specificity for detection of Thromboxane B2 (TXB2). No significant cross-reactivity or interference between Thromboxane B2 (TXB2) and analogues was observed.
Sequence Length	364
Assay Type	Competitive Inhibition
Samples	Serum, Plasma and other biological fluids
Detection Range	18.5-1,500pg/mL
Sensitivity	6.7pg/mL
Application	Enzyme-linked immunosorbent assay for Antigen Detection.
Intra-assay Precision (Precision within an assay)	3 samples with low, middle and high level Thromboxane B2 (TXB2) were tested 20 times on one plate, respectively.
Inter-assay Precision (Precision between assays)	3 samples with low, middle and high level Thromboxane B2 (TXB2) were tested on 3 different plates, 8 replicates in each plate.
CV(%) =	SD/meanX100
Intra-Assay	CV<10%
Inter-Assay	CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for TXB2 elisa kit	This assay employs the competitive inhibition enzyme immunoassay technique. A monoclonal antibody specific to Thromboxane B2 (TXB2) has been pre-coated onto a microplate. A competitive inhibition reaction is launched between biotin labeled Thromboxane B2 (TXB2) and unlabeled Thromboxane B2 (TXB2) (Standards or samples) with the pre-coated antibody specific to Thromboxane B2 (TXB2). After incubation the unbound conjugate is washed off. Next, avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. The amount of bound HRP conjugate is reverse proportional to the concentration of Thromboxane B2 (TXB2) in the sample. After addition of the substrate solution, the intensity of color developed is reverse proportional to the concentration of Thromboxane B2 (TXB2) in the sample.
Product Categories/Family for TXB2 elisa kit	Metabolic pathway; Infection immunity

NCBI AND UNIPROT INFORMATION

NCBI GI #	157820193
NCBI GeneID	303398
NCBI Accession #	NP_001100503.1
NCBI GenBank Nucleotide #	NM_001107033.1
NCBI Official Full Name	T-box transcription factor TBX2
NCBI Official Synonym Full Names	T-box 2
NCBI Official Symbol	Tbx2
NCBI Protein Information	T-box transcription factor TBX2

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
