

## Rabbit anti-General Androstenedione (ASD) Polyclonal Antibody | anti-ASD antibody

Biotin-Linked Antibody to Androstenedione (ASD)

|                               |                       |                              |                                                                  |
|-------------------------------|-----------------------|------------------------------|------------------------------------------------------------------|
| CATALOG #<br><b>AAA135062</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>General</b> | APPLICATIONS<br><b>Western Blot, ELISA, Immunohistochemistry</b> |
|-------------------------------|-----------------------|------------------------------|------------------------------------------------------------------|

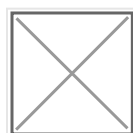

### PRODUCT SYNONYMS

Androstenedione (ASD); Polyclonal Antibody; Biotin-Linked Antibody to Androstenedione (ASD); anti-ASD antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                                                                                                                                                               |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                                                                                                                                        |
| Reactivity                                    | General                                                                                                                                                                                       |
| Clonality                                     | Polyclonal                                                                                                                                                                                    |
| Specificity                                   | The antibody is a rabbit polyclonal antibody raised against ASD. It has been selected for its ability to recognize ASD in immunohistochemical staining and western blotting.                  |
| Purity/Purification                           | Affinity Chromatography.                                                                                                                                                                      |
| Form/Format                                   | Supplied as solution form in PBS, pH7.4, containing 0.02% NaN <sub>3</sub> , 50% glycerol.                                                                                                    |
| Concentration                                 | 500ug/ml (varies by lot)                                                                                                                                                                      |
| Applicable Applications for anti-ASD antibody | WB (Western Blot), ELISA, IHC (Immunohistochemistry)                                                                                                                                          |
| Cross Reactivity                              | General                                                                                                                                                                                       |
| Unconjugated Antibody                         | The unconjugated antibody version of this item is also available as                                                                                                                           |
| Preparation and Storage                       | Store at 4 degree C for frequent use. Stored at -20 degree C to -80 degree C in a manual defrost freezer for one year without detectable loss of activity. Avoid repeated freeze-thaw cycles. |
