

Human Ribonuclease L (RNASEL) ELISA Kit | RNASEL elisa kit

Human Ribonuclease L (RNASEL) ELISA Kit

CATALOG #
AAA136377

REACTIVITY
Human

PRODUCT SYNONYMS

Ribonuclease L (RNASEL); Human Ribonuclease L (RNASEL) ELISA Kit; Rnase-L; RNS4; PRCA1; 2'; 5'-Oligoisoadenylate Synthetase-Dependent; Prostate Cancer 1; 2-5A-dependent ribonuclease; RNASEL elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of RNASEL. No significant cross-reactivity or interference between RNASEL and analogues was observed.
Sequence Length	741
Assay Type	Double-antibody Sandwich
Samples	Serum, Plasma, Tissue homogenates and other biological fluids
Detection Range	15.6-1,000pg/mL
Sensitivity	6.7pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level RNASEL were tested 20 times on one plate, respectively. Intra-Assay: CV<10%
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level RNASEL were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for RNASEL elisa kit	Intended Uses: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of RNASEL in human serum, plasma, tissue homogenates and other biological fluids. Principle of the Assay: The microplate provided in this kit has been pre-coated with an antibody specific to RNASEL. Standards or samples are then added to the appropriate microplate wells with a biotin-conjugated antibody specific to RNASEL. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain RNASEL, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of RNASEL in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for RNASEL elisa kit	Enzyme & Kinase

NCBI AND UNIPROT INFORMATION

NCBI GI #	89365969
NCBI GeneID	6041
UniProt Accession #	Q05823; Q5W0L2; Q6AI46
Molecular Weight	73,416 Da
NCBI Official Full Name	Ribonuclease L
NCBI Official Synonym Full Names	ribonuclease L (2',5'-oligoadenylate synthetase-dependent)
NCBI Official Symbol	RNASEL
NCBI Official Synonym Symbols	RNS4; PRCA1
NCBI Protein Information	2-5A-dependent ribonuclease
UniProt Protein Name	2-5A-dependent ribonuclease
UniProt Gene Name	RNASEL
UniProt Synonym Gene Names	RNS4; 2-5A-dependent RNase; RNase L
UniProt Entry Name	RN5A_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
