

## Human Histone Deacetylase 9 (HDAC9) ELISA Kit | HDAC9 elisa kit

Human Histone Deacetylase 9 (HDAC9) ELISA Kit

CATALOG #  
AAA137047

REACTIVITY  
Human

### PRODUCT SYNONYMS

Histone Deacetylase 9 (HDAC9); Human Histone Deacetylase 9 (HDAC9) ELISA Kit; HD7; HDAC; HDAC7; HDAC7B; HDAC9B; HDAC9FL; HDRP; MITR; Histone deacetylase-related protein; MEF2-interacting transcription repressor MITR; Histone deacetylase 7B; HDAC9 elisa kit

### PRODUCT SPECIFICATIONS

| Reactivity                                        | Human                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Specificity                                       | This assay has high sensitivity and excellent specificity for detection of Histone Deacetylase 9 (HDAC9). No significant cross-reactivity or interference between Histone Deacetylase 9 (HDAC9) and analogues was observed.                                                                                                                                                                                                                                                                |

| Application                                       | Enzyme-linked immunosorbent assay for Antigen Detection.                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Intra-assay Precision (Precision within an assay) | 3 samples with low, middle and high level Histone Deacetylase 9 (HDAC9) were tested 20 times on one plate, respectively.                                                                                                                                                                                                                                                                                                                                                                   |
| Inter-assay Precision (Precision between assays)  | 3 samples with low, middle and high level Histone Deacetylase 9 (HDAC9) were tested on 3 different plates, 8 replicates in each plate.                                                                                                                                                                                                                                                                                                                                                     |

| Inter-Assay                                       | CV<12%                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Preparation and Storage                           | The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition.<br>To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end. |

| Related Product Information for HDAC9 elisa kit | The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Histone Deacetylase 9 (HDAC9). Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody specific to Histone Deacetylase 9 (HDAC9). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Histone Deacetylase 9 (HDAC9), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Histone Deacetylase 9 (HDAC9) in the samples is then determined by comparing the O.D. of the samples to the standard curve. |
| Product Categories/Family for HDAC9 elisa kit   | Enzyme & Kinase                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
