

NA (A/Vietnam/1203/2004)(H5N1, human) Polyclonal Antibody | anti-NA antibody

Anti-NA (A/Vietnam/1203/2004)(H5N1, human)

CATALOG #
AAA13721

APPLICATIONS
Western Blot, ELISA

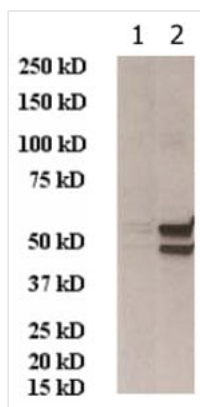

PRODUCT SYNONYMS

NA (A/Vietnam/1203/2004)(H5N1; human); Polyclonal Antibody; Anti-NA (A/Vietnam/1203/2004)(H5N1; Anti-NA (H5N1); rabbit IgG; anti-NA antibody

PRODUCT SPECIFICATIONS

Clonality	Polyclonal
Isotype	IgG
Specificity	Reacts with Influenza A NA (H5N1) protein. Cross-reactivity to other NA proteins not tested.
Purity/Purification	Immunoaffinity chromatography
Concentration	2 ug/ul in PBS (varies by lot)
Applicable Applications for anti-NA antibody	WB (Western Blot), ELISA
Application Notes	Western blot (1:200-1:1000)
Introduction	There are two surface glycoproteins embedded in the influenza viral membrane: the hemagglutinin (HA) and neuraminidase (NA). At least 16 different HA antigens have been identified, and these subtypes are named H1 through H16. As with hemagglutinin, neuraminidase comes in a variety of subtypes named N1-N9. The NA is an enzyme that removes sialic acids from the surface of the cell, so that newly formed virions can be released. NA inhibitors (NAIs) have been considered to be one of the most promising drug candidates in the battle against this highly contagious pathogen.
Immunogen	in vivo expressed NA protein from Influenza A virus (H5N1) (A/Vietnam/1203/2004) (Genebank No. ABP52008)
Preparation and Storage	Store at -20 degree C. Stable for 6-months from the date of shipment when kept at - 4 degree C. Non-hazardous. No MSDS required.

IMAGES

WB (Western Blot)

Western Blot: 1: 293 cell extract control 2: 293 cell expressing NA (H5N1)

ADDITIONAL INFORMATION

Related Product Information for anti-NA antibody	Description: Anti-NA (H5N1) rabbit polyclonal antibody Rabbit polyclonal antibody produced by genetic immunization
Product Categories/Family for anti-NA antibody	Antibodies for Infectious Diseases (rabbit Polyclonal unless specified) ; Affinity Purified Rabbit Polyclonal Antibodies against Influenza A

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
