

# Human Tumor Necrosis Factor Ligand Superfamily, Member 14 (TNFSF14) ELISA Kit | TNFSF14 elisa kit

Human Tumor Necrosis Factor Ligand Superfamily, Member 14 (TNFSF14) ELISA Kit

CATALOG #  
**AAA137494**

REACTIVITY  
**Human**

## PRODUCT SYNONYMS

Tumor Necrosis Factor Ligand Superfamily; Member 14 (TNFSF14); Human Tumor Necrosis Factor Ligand Superfamily; Member 14 (TNFSF14) ELISA Kit; CD258; TR2; HVEM; LIGHT; LTg; Herpes virus entry mediator ligand; Herpesvirus entry mediator ligand; TNFSF14 elisa kit

## PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Inter-Assay                                       | CV<12%                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Preparation and Storage                           | The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition.<br>To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end. |

| Related Product Information for TNFSF14 elisa kit | The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Tumor Necrosis Factor Ligand Superfamily, Member 14 (TNFSF14). Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody specific to Tumor Necrosis Factor Ligand Superfamily, Member 14 (TNFSF14). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Tumor Necrosis Factor Ligand Superfamily, Member 14 (TNFSF14), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Tumor Necrosis Factor Ligand Superfamily, Member 14 (TNFSF14) in the samples is then determined by comparing the O.D. of the samples to the standard curve. |
| Product Categories/Family for TNFSF14 elisa kit   | CD & Adhesion molecule; Apoptosis; Tumor immunity; Infection immunity                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
