

Human Connexin 26 (CX26) ELISA Kit | CX26 elisa kit

Human Connexin 26 (CX26) ELISA Kit

CATALOG #
AAA137629

REACTIVITY
Human

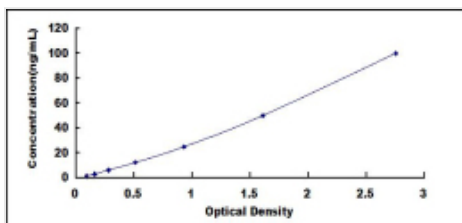

PRODUCT SYNONYMS

Connexin 26 (CX26); Human Connexin 26 (CX26) ELISA Kit; KID; DFNA3; DFNB1; HID; NSRD1; PPK; GJB2; Gap Junction Protein Beta 2; CX26 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of Connexin 26 (CX26). No significant cross-reactivity or interference between Connexin 26 (CX26) and analogues was observed.
Sequence Length	226
Assay Type	Double-antibody Sandwich
Samples	Serum, Plasma, Tissue Homogenates, Cell Lysates, Cell Culture Supernates And Other Biological Fluids
Detection Range	1.56-100ng/mL
Sensitivity	0.62ng/mL
Application	Enzyme-linked immunosorbent assay for Antigen Detection.
Intra-assay Precision (Precision within an assay)	3 samples with low, middle and high level Connexin 26 (CX26) were tested 20 times on one plate, respectively.
Inter-assay Precision (Precision between assays)	3 samples with low, middle and high level Connexin 26 (CX26) were tested on 3 different plates, 8 replicates in each plate.
CV(%) =	SD/meanX100
Intra-Assay	CV<10%
Inter-Assay	CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for CX26 elisa kit	The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Connexin 26 (CX26). Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated antibody specific to Connexin 26 (CX26). Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Connexin 26 (CX26), biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of Connexin 26 (CX26) in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for CX26 elisa kit	Tumor immunity; Ophthalmology & Otorhinolaryngology; Developmental science

NCBI AND UNIPROT INFORMATION

NCBI GI #	19401867
NCBI GeneID	2706
UniProt Accession #	P29033; Q508A5; Q508A6; Q5YLL0; Q5YLL1; Q5YLL4; Q6IPV5; Q86U88; Q96AK0; Q9H536; Q9NNY4
Molecular Weight	26,215 Da
NCBI Official Full Name	connexin 26
NCBI Official Synonym Full Names	gap junction protein, beta 2, 26kDa
NCBI Official Symbol	GJB2
NCBI Official Synonym Symbols	HID; KID; PPK; CX26; DFNA3; DFNB1; NSRD1; DFNA3A; DFNB1A
NCBI Protein Information	gap junction beta-2 protein
UniProt Protein Name	Gap junction beta-2 protein
UniProt Gene Name	GJB2
UniProt Synonym Gene Names	Cx26
UniProt Entry Name	CXB2_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
