

Goat anti-Rabbit IgG Antibody | anti-IgG antibody

Goat Anti-Rabbit IgG

CATALOG # AAA13798	HOST Goat	REACTIVITY Rabbit	APPLICATIONS Western Blot
------------------------------	---------------------	-----------------------------	-------------------------------------

PRODUCT SYNONYMS

IgG; Goat Anti-Rabbit IgG; anti-IgG antibody

PRODUCT SPECIFICATIONS

Host	Goat
Reactivity	Rabbit
Specificity	This antibody has been selected as an isotype control as it has no known specificity.
Concentration	5mg/ml (varies by lot)
Sequence Length	476
Applicable Applications for anti-IgG antibody	WB (Western Blot)
Source Note	This Goat anti-Rabbit IgG is isolated from normal Goat serum hyperimmunized with normal Rabbit IgG.
Preparation and Storage	Store at -20 degree C. Stable for one year from the date of shipment.

ADDITIONAL INFORMATION

Related Product Information for anti-IgG antibody	Immunoglobulin G (IgG) is one of the most abundant proteins in human serum which constitutes 75% of serum immunoglobulins. IgG is produced by B lymphocytes as a part of our adaptive immune response. The IgG molecule has two separate functions: to bind to the pathogen that elicited the response and to recruit other cells and molecules to destroy the antigen through Antibody-dependent cell-mediated cytotoxicity (ADCC) effection.
