

Mouse Lectin Galactoside Binding, Soluble 3 Binding Protein (LGALS3BP) ELISA Kit | LGALS3BP elisa kit

Mouse Lectin Galactoside Binding, Soluble 3 Binding Protein (LGALS3BP) ELISA Kit

CATALOG # AAA138586	REACTIVITY Mouse
-------------------------------	----------------------------

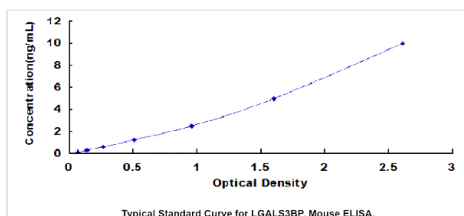

PRODUCT SYNONYMS

Lectin Galactoside Binding; Soluble 3 Binding Protein (LGALS3BP); Mouse Lectin Galactoside Binding; Soluble 3 Binding Protein (LGALS3BP) ELISA Kit; MAC-2-BP; LGALS3-BP; Galectin-3-Binding Protein; L3 Antigen; Mac-2-Binding Protein; Tumor-associated antigen 90K; Serum Protein 90K; Basement membrane autoantigen p105; LGALS3BP elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Mouse
Specificity	This assay has high sensitivity and excellent specificity for detection of LGALS3BP. No significant cross-reactivity or interference between LGALS3BP and analogues was observed.
Sequence Length	565
Assay Type	Quantitative Sandwich
Samples	Mouse serum, plasma and other biological fluids
Detection Range	0.156-10ng/mL
Sensitivity	< 0.069ng/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level LGALS3BP were tested 20 times on one plate, respectively. Intra-Assay: CV<10%
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level LGALS3BP were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for LGALS3BP elisa kit	Principle of the Assay: The microplate provided in this kit has been pre-coated with an antibody specific to LGALS3BP. Standards or samples are then added to the appropriate microplate wells with a biotin-conjugated antibody specific to LGALS3BP. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain LGALS3BP, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm ± 10nm. The concentration of LGALS3BP in the samples is then determined by comparing the O.D. of the samples to the standard curve. Intended Uses: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of LGALS3BP in mouse serum, plasma and other biological fluids.
Product Categories/Family for LGALS3BP elisa kit	Tumor immunity; Infection immunity; Immunodeficiency

NCBI AND UNIPROT INFORMATION

NCBI GI #	659667826
NCBI GeneID	103392813
NCBI Accession #	NP_001281125.1
NCBI GenBank Nucleotide #	NM_001294196.1
NCBI Official Full Name	lectin, galactoside-binding, soluble, 3 binding protein
NCBI Official Symbol	Igals3bp
NCBI Protein Information	lectin, galactoside-binding, soluble, 3 binding protein

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
