

Human Keratin 5 (KRT5) ELISA Kit | KRT5 elisa kit

Human Keratin 5 (KRT5) ELISA Kit

CATALOG #
AAA138638

REACTIVITY
Human

PRODUCT SYNONYMS

Keratin 5 (KRT5); Human Keratin 5 (KRT5) ELISA Kit; CK5; DDD; EBS2; K5; KRT5A; KRT5-A; Cytokeratin 5; 58 kDa cytokeratin; Type-II keratin Kb5; Epidermolysis Bullosa Simplex Dowling-Meara/Kobner/Weber-Cockayne Types; KRT5 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay has high sensitivity and excellent specificity for detection of KRT5. No significant cross-reactivity or interference between KRT5 and analogues was observed.
Sequence Length	590
Assay Type	Double-antibody Sandwich
Samples	Serum, Plasma, Tissue homogenates, Cell lysates, Cell culture supernates and other biological fluids
Detection Range	15.6-1,000pg/mL
Sensitivity	6.6pg/mL
Intra-assay Precision	Intra-assay Precision (Precision within an assay): 3 samples with low, middle and high level KRT5 were tested 20 times on one plate, respectively. Intra-Assay: CV<10%
Inter-assay Precision	Inter-assay Precision (Precision between assays): 3 samples with low, middle and high level KRT5 were tested on 3 different plates, 8 replicates in each plate. CV(%) = SD/meanX100. Inter-Assay: CV<12%
Preparation and Storage	The stability of kit is determined by the loss rate of activity. The loss rate of this kit is less than 5% within the expiration date under appropriate storage condition. To minimize extra influence on the performance, operation procedures and lab conditions, especially room temperature, air humidity, incubator temperature should be strictly controlled. It is also strongly suggested that the whole assay is performed by the same operator from the beginning to the end.

ADDITIONAL INFORMATION

Related Product Information for KRT5 elisa kit	Intended Uses: The kit is a sandwich enzyme immunoassay for in vitro quantitative measurement of KRT5 in human serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids. Principle of the Assay: The microplate provided in this kit has been pre-coated with an antibody specific to KRT5. Standards or samples are then added to the appropriate microplate wells with a biotin-conjugated antibody specific to KRT5. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain KRT5, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm +/- 10nm. The concentration of KRT5 in the samples is then determined by comparing the O.D. of the samples to the standard curve.
Product Categories/Family for KRT5 elisa kit	Tumor immunity

NCBI AND UNIPROT INFORMATION

NCBI GI #	9739163
Molecular Weight	62,378 Da
NCBI Official Full Name	keratin 5
UniProt Protein Name	Keratin, type II cytoskeletal 5
UniProt Gene Name	KRT5
UniProt Synonym Gene Names	CK-5; K5
UniProt Entry Name	K2C5_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
